Songs for Aboriginal Studies and Reconciliation
By Buck McKenzie

Songs for Aboriginal Studies and Reconciliation
By Buck McKenzie

The seventeen mesmerizing songs written by Buck McKenzie in this splendid compilation are a celebration of urban and rural Aboriginal life and culture.

Each song has a tune which inspires singers, and many - such as *Idnya the Native Cat* and *Maggie, Crow, and Eagle* - carry stories filled with humour and linked to the Dreaming.

The delicious lyrics roll off the tongue, are quirky and illustrative, and yet contain a sense of home and belonging. The songs actually get under your skin, and you can't help but sing them again and again!

It is a delight to listen to, sing along with, and offers choral opportunities that will inspire as well as challenge.
